Code: date/type/number

Date: 12 July = A; 13 July = B; 14 July = C

Type: P = Plenary, S = Semiplenary; L= Parallel lecture; W = workshop/discussion group

Number: progressive

Each lecture and workshop is given a code. Please indicate on your application form at least two options from lectures and workshops listed in the programme for each day, to help us allow as many people to attend the events of their choice.

Plenary sessions will last one hour and a half. Simultaneous translations will be provided in the five official IFOTES languages: English, French, German, Italian, Spanish.

Semi-plenary sessions will last one hour and fifteen minutes. They are given twice with half the audience attending each time. The topic is the same for each semi-plenary: the results of the two research programmes on TES work and volunteers conducted by the University of Geneva (CH) and The University of Padua (I). Translations will be provided in all five languages.

TES Parallel lectures will last one hour and fifteen minutes, with two or three speakers. They are given twice: each time they will have the same topic and will be translated into two other languages (different each time).

Further details of your attendance at lectures and participation in workshops will be given to you directly before the congress starts, or at the registration desk.

During the congress our volunteer staff will be pleased to help you in finding your workshop location, as well as make your stay in Prato as comfortable as possible.
